**Greystone Energy Systems Inc & COVID-19 - A Message to our Customers - #7**

Dear Valued Customer,

Thank you for your continued support. April is now behind us and we are looking forward to slight improvements in our collective business volume as we move into May.

Operations here at Greystone are continuing as usual as we move towards completing our seventh week operating under a State of Emergency.

Our staff have done a fantastic job maintaining our operations under very challenging circumstances. We are successfully managing and mitigating any supply chain challenges and as a result have seen very positive on time delivery numbers over the last several weeks.

We remain willing and able to supply all your product needs and look forward to working with you as the world begins to recover from the challenges of Covid-19.

We wish you, your families and your employees good health during these challenging circumstances.

Best regards,

Robin Drummond  
President & CEO
