ENERGY SYSTEMS INC

DIFFERENTIAL PRESSURE INSTALLATION KIT

DDP SERIES

NOTE: Greystone Energy Systems, Inc. reserves the right to make design modifications without prior notice.

PRODUCT DESCRIPTION

The differential pressure install kit is used in conjunction with an air differential pressure switch or transmitter to measure low differential pressure in applications such as calculating airflow, fan or filter status.

The install kit consists of 2 pick up tubes and 2m (6.56') of 6.35mm (0.25") OD PVC tubing
