

# Quality Inspector

## The Opportunity

We are looking for a motivated **QUALITY INSPECTOR** to join our Quality team.

## Objective & Purpose

This position is responsible for performing Quality Inspections and determining conformance to product design specifications and customer requirements.

This position is responsible for issuing and logging non-conformances identified during the inspection process.

Why work for Greystone Energy Systems? We are a global organization with our world-wide headquarters and manufacturing plant located in Moncton, NB. Join Greystone and you will work Monday to Friday, day shift, with Weekends and Holidays off. We have a casual dress code, and we offer a comprehensive benefit package, including: Health, Dental, Vision Care, Para-medical, Virtual Doctor Care, EAFP for you and your family. Greystone Energy Systems wants to help you save for your future with an employer matching RRSP plan from day one. We offer free parking and we are located on the bus route in the Moncton Industrial Park.

## Principle Duties & Responsibilities

- Inspect work and assess product quality using the specifications and inspection processes provided.
- Identify and segregate non-conforming products and inventory.
- Document the details of all non-conformances found; enter data in the non-conformance database.
- Prepare and present reports of non-conformances found.
- Inspect and approved product repairs to previously found defects.
- Maintain adherence to ISO procedures and policies.
- Escalate production quality issues to Quality Assurance Manager.
- Assist Quality Manager with quality assignments, corrective actions and process improvement initiatives as requested.
- Additional duties as required.

## Education, Training & Experience

- Community College Diploma or High School Diploma with minimum 2 years work experience in a production/manufacturing environment; preferably in a quality/inspection role.

---

### Skills and Competency Requirements

- Strong attention to detail.
- Strong communication skills.
- Strong understanding of Work Orders and Bills of Materials.
- Proven ability to work in a high paced multi-tasking environment.
- Familiar with Microsoft Office (Word and Excel) and Outlook.
- Self-motivated and capable of working independently with limited supervision.

Preference will be given to applicants that can prove a successful track record.

Only those who will be considered for the next step of the application process will be contacted.

**Interested individuals please submit CV to apply, at [mattatall.j@greystoneenergy.com](mailto:mattatall.j@greystoneenergy.com)**
