Ш

REMOTE SENSOR LIQUID PRESSURE TRANSMITTERS WPR Series

Precision pressure control/sensing

FEATURES

- Differential and gauge pressure models
- To or Armoured cable available in different lengths
- Four, switch selectable, ranges per model
- Jumper selectable outputs: 4-20mA, 0-5 Vdc or 0-10 Vdc
 Optional backlit (jumper-selectable) LCD
 - All stainless steel sensor construction
- Port swap switch to correct incorrect plumbing
- · Switch selectable uni or bi-directional
- IP65 (Nema 4X) hinged enclosure

Peace of mind through reliable pressure monitoring

GREYSTONE HAS AN ISO 9001 REGISTERED QUALITY SYSTEM

APPLICATIONS:

- Pump Monitoring
- Chiller Monitoring
- Filter Monitoring
- HVAC Systems

SPECIFICATIONS:

Media Compatibility17-4 PH stainless steel

Pressure Ranges4 ranges per model - Switch selectable

0-50/100/250/500 kPa 0-5/10/25/50 psig/d 0-.5/1/2.5/5 Bar 0-10/20/50/100 psig/d 0-.75/1.5/3.75/7.5 Ba 0-75/150/375/750 kPa 0-100/200<mark>/5</mark>00/1000 kPa 0-20/40/100/200 psig/d 0-1/2/5/10 Bar 0-300/600/1500/3000 kPa 0-50/100/250/500 psig/d 0-3/6/15/30 Bar

Line PressureMax. line pressure is the highest of the selectable ranges on each model

i.e.: WPRD101 has a maximum line pressure of 50 psi

Proof PressureMax. 2X highest range per model Burst PressureMax. 5X highest range per model

Accuracy± 1% F.S. of range selected with combined linearity, hysteresis, and repeatability

Pressure Cycles.....>100 million

Surge Damping......Normal: 4 second averaging

Slow: 8 second averaging, switch selectal

Sensor Operating Range.....-40° to 85°C (-40° to 185°F)

Compensated Range0° to 55°C (32° to 130°F)

Operating Environment0° to 50°C (32° to 122°F), 10-90% RH condensing

Stability.....±0.25% typical (1 year)

Zero AdjustPush-button auto-zero and digital input

Power Supply.......18 to 28 Vac/Vdc (hon-isolated half-wave rectified)

Consumption100 mA max 24 Vdc with LCD backlight, 35 mA with backlight disabled

Output Signal......3-wire transmitter; user selectable 4-20mA active(sourcing), 0-5 Vdc and 0-10 Vdc

Pressure Connections1/4" NPT mal

Sensor Shock.......100G, 11 mSec, 1/2 sine

Sensor Vibration......10G peak 20 to 2000 Hz

10K ohms min for voltage output

Remote CableS = FT6 Plenum Rated

A= Armoured

...ABS, hinged lid with gasket, IP65 (Nema 4X) 145 X 100 X 64 mm (5.7" X 3.95" X 2.5") Enclosure.....

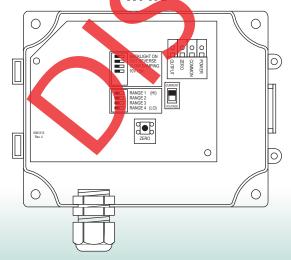

Wiring Connections..... Screw terminal block (14 to 22 AWG)

Optional LCD Display.....35 mm x 15 mm (1.4" w x 0.6" h) alpha-numeric 2 line x 8 character

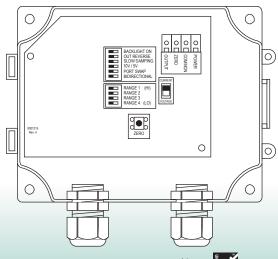

Resolution - 1 psi

Backlight - Enable or disable via jumper

WPRG

WPRD

DESCRIPTION:

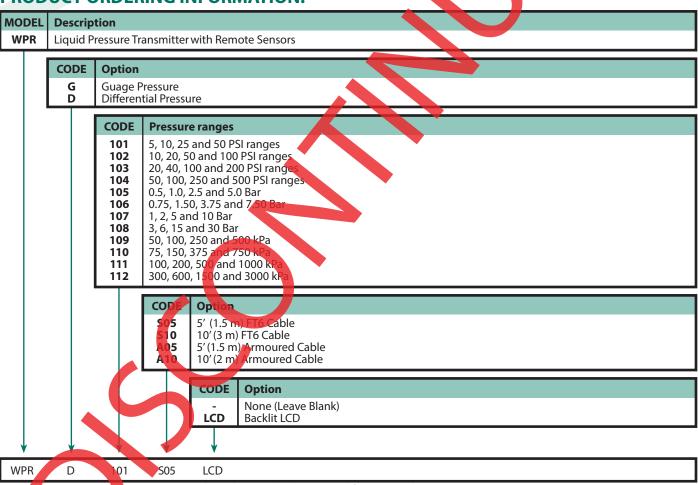

The WPR Series remote pressure transmitters allow remote pressure sensing using existing plumbing runs. With no need to run plumbing lines all the way to the transmitter, the installation time and cost is greatly reduced. The WPR is available with either standard FT6 or armored cable in 5' or 10' (1.5 m or 3 m) cable lengths.

The WPRD differential pressure transmitter is designed with dual remote sensors that enable it to accept high differential pressure ranges. The WPRG gauge pressure transmitter is designed with a single remote sensor that enables it to accept high pressures ranges.

Both transmitters can accept ranges from 5 PSI to 500 PSI. All models can handle overload pressure 2X the maximum full scale range and burst pressure is 5X the maximum full scale range. Features include field selectable pressure ranges and output signal types for the most flexible applications. Typical HVAC applications include monitoring of liquid differential and gauge pressure. The output signal is factory calibrated and temperature compensated for the highest start-up accuracy.

NOTE: When choosing pressure range ensure that the maximum individual port pressure does not exceed the maximum pressure range of the unit. For example, the maximum individual port pressure of the WPRD102S05 is 100 PSI. Exceeding this may cause damage to the sensors and will give erroneus readings.

Greystone Energy Systems Inc. is one of North America's largest ISO registered manufacturers of HVAC/R sensors and transmitters for Building Automation Management Systems. We have conscientiously established a worldwide reputation as an industry leader by maintaining leadingedge design technology, prompt technical support, and a commitment to on-time deliveries. We take pride in our Quality Management System which is ISO 9001 certified, assuring our customers of consistent product reliability.
