GREYSTONE ENERGY SYSTEMS INC

The WPRG Series guage pressure transmitter with remote pressure sensor allows for remote pressure sensing using existing plumbing runs. With no need to run plumbing lines all the way to the transmitter, the installation time and cost is greatly reduced. The WPRG is available with either standard FT6 or armored cable in 5 or 10' (1.5 m or 3 m) cable lengths.

The WPRG can accept ranges from 5 PSI to 500 PSI. All models can handle overload pressure 2X and burst pressure is 5X the maximum full scale range . Features include field selectable pressure ranges and output signal types for the most flexible applications.

GUAGE PRESSURE TRANSMITTER WITH REMOTE SENSORS WPRG Series

NOTE: When choosing pressure range ensure that the maximum individual port pressure does not exceed the maximum pressure range of the unit. For example, the maximum individual port pressure of the WPRG102S05 is 100 PSI. Exceeding this may cause damage to the sensors and will give erroneus readings.

GREYSTONE ENERGY SYSTEMS, INC.

TYPICAL INSTALLATION:

For complete installation and wiring details, please refer to the product installation instructions.

The WPRG enclosure mounts on any surface using the four holes provided on the base of the unit. Make sure there is enough space around the unit to connect the sensor cables and electrical conduit. Avoid locations where severe vibrations or excessive moisture are present.

The unit may be mounted in any position but typically is installed on a vertical surface with pressure cable on the bottom. The enclosure has a standard opening for a 1/2" conduit and may be installed with either conduit and a conduit coupler or a cable gland type fitting.

Greystone Energy Systems Inc. is one of North America's largest ISO registered manufacturers of HVAC sensors and transducers for Building Automation Management Systems. We have conscientiously established a worldwide reputation as an industry leader by maintaining leadingedge design technology, prompt technical support, and a commitment to on-time deliveries. We take pride in our Quality Management System which is ISO 9001 certified, assuring our customers of consistent product reliability.

GREYSTONE HAS AN ISO 9001 REGISTERED QUALITY SYSTEM
